TEXAS IN TYPE.

TEXAS CROPS AND WEATHER.

Rain is badly needed around Bowie. The corn crop of that section of Montague is being damaged for want of rain, though cotton is doing well.

The rain Sunday and Monday gave the rain crop a much needed shower, but a severe fall of a heavy crop of Nacogdoches.

All sections of Navarro county have had good rains. Corn will make a good crop without any more rain, and cotton will be better without it.

Good rains are reported from various sections of Fort Worth. In some places the rain has been heavy, while in others only light showers have fallen.

Adamsville, Comanche county, three hundred bushels of wheat from fifty-five acres.

Ackerly county farmers say their wheat is yielding from twenty-five to thirty bushels per acre. William Coleman says he thinks his corn will make a good crop.

The people of Brown county celebrated the nation's birthday by observing the day with a picnic at the fair grounds.

A good shower fell at Denison Tuesday morning.

A good shower fell Sunday night at Jefferson, followed by light showers all Monday. Corn is safe and cotton looking well.

The Reporter says wheat and oats are coming in at an average of twenty bushels per acre. The wheat is selling at 60 cents and oats at 20 cents.

From fifteen to thirty bushels per acre, and the corn crop from twenty to thirty bushels per acre.

Mr. C. L. Carter of Saylor county has about twenty acres of wheat that will yield fifty bushels per acre. His corn and millet are also looking fine.

The people of Grayson county, July 9. We have the best crops in the state. We have had in seven years. The whole face of the earth is green with wheat. Orchard, field, garden and lawn have given forth a bumper crop of fruit and vegetables. The people are happy and contented.

A good rain fell here last night, which was most timely, as we were in a famine for water. Early today a strong wind from the north will blow away the clouds and give us a fine day.

Calley Mills, Bosque county, July 9. Yesterday was the hottest day of the season with a thermometer registering 94 in the shade. The wind was from the north and the sun was very hot.

Wichita Falls, Wichita county, July 9. A heavy shower of rain fell here last night, which was most timely, as we were in a famine for water. Early today a strong wind from the north will blow away the clouds and give us a fine day.

Wichita Falls, Wichita county, July 9. A heavy shower of rain fell here last night, which was most timely, as we were in a famine for water. Early today a strong wind from the north will blow away the clouds and give us a fine day.

Wichita Falls, Wichita county, July 9. A heavy shower of rain fell here last night, which was most timely, as we were in a famine for water. Early today a strong wind from the north will blow away the clouds and give us a fine day.

Wichita Falls, Wichita county, July 9. A heavy shower of rain fell here last night, which was most timely, as we were in a famine for water. Early today a strong wind from the north will blow away the clouds and give us a fine day.

Wichita Falls, Wichita county, July 9. A heavy shower of rain fell here last night, which was most timely, as we were in a famine for water. Early today a strong wind from the north will blow away the clouds and give us a fine day.

OF DUBLIN, TEXAS, REPRESENTED BY
JOHN HOWARD, FORT WORTH, TEXAS.

TEXAS RAILROAD COMMISSION.

Howard Says They Want an Expert Railroad Man to Make Their Organization Complete.

"What do you think about the Texas railroad commission?" was the question put to John Howard by a GAZETTE representative last evening at the Pickwick hotel.

"I consider that Governor Hoar made a tenacious selection in the men he did for that important work. They are all able, honorable and conservative gentlemen, and the people and railroad officials can't help but respect and have confidence in them."

"I look for the commission to do good work both for the people of Texas and the owners of the roads," continued Howard, "but I would suggest to the commission that they at once secure the services, regardless of salaries, of a few men who are thoroughly reliable and honorable railroad men, one who has had years of experience both in passenger and freight business."

"Yes, sir; in that regard, I think it would be a good idea to have such a man, regardless of cost."

"It takes, as you know, five to eight days, and they will find that a railroad man of experience, and reputation for fair dealing, will steer them clear of many a 'snag,' and save much valuable time and money for the state."

"I am afraid," said John, "that when mistakes are made, which the commission will show the commissioners very little or no money, and the less money, the better it will be for all concerned. This is why I think it would be economy to have a man employed by the commission who thoroughly understands the railroad business and will do both people and railroads justice."

"You are right, it is easier to criticize than to create, and the commission is and will be a target for everybody to fire at. Many say we want relief in the way of rates, etc., but at the same time they are ready to curse the commission. They should make a slight mistake in favor of or against the railroads."

"Yes, a great deal depends on the good judgment of those in charge of this important work. The majority of our people are heartily in favor of giving the roads a good square deal, and should the commission be too severe on the roads, the people would kick hard and long."

"And again," continued Howard, "those who oppose the commission would be only too glad to have the commission make a serious mistake, so they could make capital out of it."

"We have to bear in mind the fact that railroads are well organized and pay well for their services, while the people are not so well organized and do not pay as high salaries. Had the commission an expert railroad man in their employ who would favor neither people nor railroads, but do justice to both, the railroads and the people would have no objection to their work."

"Well, you asked me my opinion of the commission and their work, and I have given it to you as I see it. If it doesn't suit you, I can't help it. I know it takes money to secure good men, and if you want a railroad man—which, of course the commission would want—a man of this kind is the cheapest in the end, and if they have not such a man they had better get him."

"Never mind about Dublin and the county of Erath, both town and county are all right and will be heard from in due time," said John when asked about Dublin and the land sale to take place there next month.

"Don't mix up state affairs with local matters. The people will think you are using the state and the state officials to advertise Dublin and Erath county. Have some limit to your boom work, and when I talk to you about the alien land law and our homestead law and taxing large land owners, etc., don't put in how I tell you about Dublin and Erath county."

"That's all well enough in its place," said Howard, "but when we want to advertise Dublin and our farm land and town lots, we will write up an article for it in The GAZETTE at the usual rates per line."

"Speaking of the railroad commission, I assure you it is a great pleasure and satisfaction to me to see a commission appointed and at work, and I look for good results, too, from it."

"Yes, there is no man in Texas, I care not what interest he may have here, that feels a greater interest in the work of our railroad commission than I do, and some day when I have more time I may tell you why."

"Do I know E. O. Flood of Galveston? I should say I do. He is a bright young man, sharp as a tack, well up on railroad business and thoroughly reliable, and since you have mentioned his name, I will say that he would be a valuable man for the commission to have. Don't know that they could get him, but if they had such a man they would save a heap of time and money for the state. There are other good

"Do I know E. O. Flood of Galveston? I should say I do. He is a bright young man, sharp as a tack, well up on railroad business and thoroughly reliable, and since you have mentioned his name, I will say that he would be a valuable man for the commission to have. Don't know that they could get him, but if they had such a man they would save a heap of time and money for the state. There are other good

men to be had, no doubt, but in my opinion it would be a mistake to choose any one about Texas and has been in the employ of Texas roads for years, and as you know, now represents the city of Galveston. Of course I don't quote me in this; if you did some night say I had an ax to grind."

A Runaway Bicycle.
Special to the Gazette.
SHERMAN, GRANT COUNTY, TEX., July 9.—John Hill, while riding a bicycle near the city last evening, was blown off a fifteen foot embankment, and was pretty badly bruised in several places.

The governor has written the county attorney regarding the reports of open violation of the Sunday law by saloons in Denison, which is stirring up some exciting comment.

A Recent Wife and Her Paramour Stabbed to the Heart—The Husband then Drives a Pointed Nail Into His Own Heart.
Special to the Gazette.

LAS CRUCES, MEXICO, July 9.—Lying side by side, their hands folded across their breasts, their dead eyes open as if appealing to heaven, lay the bodies of a tall and rather handsome American and a dark-skinned Mexican woman, who, but for the look of death, would have been a beautiful couple. An investigation showed that the bodies had been brought to the place and deposited in the out-of-the-way corner of a building, where they had been found by the police.

The woman must have been a witness to the crime and then became the second victim, for an awful look of horror and fright was on her face, and she lay in her arms, with her head resting on her breast, the weapon with which the terrible deed had been committed—a long pointed dagger.

Two days later the mystery was cleared by the confession and suicide of Pedro Jaramilla, one of the wealthiest and most prominent ranchmen in the state. He had a knife which was left in the heart of the dead woman was the clue which led to the unraveling of the tangled skein. The pointed dagger had been found in the heart of the dead woman, and it was found that the man who had committed the crime was Pedro Jaramilla, and that he had committed the crime on the night of the 7th inst.

This led to an investigation at the ranch of Jaramilla and it was learned that Donna Inez, the wife of the man who had committed the crime, had been given out at the ranch that she had gone to the City of Mexico on a visit. Don Pedro was arrested and with several people who were acquainted with the family, were taken to the two dead bodies. The woman was at once identified as the wife of Jaramilla, and she told the man who had committed the crime was Pedro Jaramilla, and that he had committed the crime on the night of the 7th inst.

Don Pedro would say nothing except that he knew nothing of his wife and had never seen the man before. Jaramilla was placed in prison and after the first night broke down and made a full confession. He said that the man was Richard Morrison, a surveyor from the United States, who had been engaged in laying a route for a railroad near his ranch. The American and his wife paid so much attention to each other that his suspicions were aroused and he determined to watch them. One morning he told the old story of having to go to a distant part of the ranch, and said he would be gone all day. He changed clothes with a hired man and the man on a horse, while he remained at the corral. In about an hour one of the boys of the place saddled a horse and rode rapidly toward the surveyor's camp. He soon returned with Morrison, who went to the house. Jaramilla quietly slipped to the room and there beheld a sight which turned him into a tiger. He crept stealthily upon the couple and with a swift stroke of his dagger snatched the man by the throat. Don Pedro then called together his people and showed them what he had done. That night the bodies were placed in a wagon and for two days the party traveled until they thought they were beyond all chance of recognition and there they left the couple to be picked up by vultures and wolves. After the confession Jaramilla was not watched closely, and it is supposed that some of his servants conveyed to him a knife, for on the following morning he was found dead with a pointed dagger sticking in his heart.

A \$2,000,000 Blaze.
CADILLAC, MICH., July 9.—One of the most disastrous fires that ever occurred in this section broke out last night in the extensive mill plant of Mitchell, Brock, twelve miles from this city. The firm operates a large plant at that place, embracing a planing mill, saw-mill and large timber yard. One million feet of lumber, the immense planing-mill and eighteen dwellings were reduced to ashes. The total loss is placed at \$2,000,000. The insurance amounted, it is reported, to \$250,000.

Didn't Like the Job.
Special to the Gazette.
FORNEY, KAUFMAN COUNTY, TEX., July 9.—For a little over a week a force of eight hands from the Kaufman county poor farm has been at work. During the time four of them have escaped. One returned to camp to-day, and the other three are located in Dallas, and Mr. John Gray, superintendent, leaves this evening on the train to try to recapture them.

Court at Jacksonville.
Correspondence of the Gazette.
